Toyo Gosei Co., Ltd.

Securities Code: 4970

FY2025 Q3 Financial Highlights

- New facilities for advanced semiconductor materials are progressing toward product qualification, with operations and shipments increasing.
- Net sales increased 5% YoY to ¥30,408 million, supported by steady sales of advanced semiconductor materials.
- Operating profit declined 32% YoY to ¥2,071 million, mainly due to ¥1.93 billion in increased costs (depreciation, headcount expansion, etc.) from the start-up of new facilities for advanced semiconductor materials.

Quarterly Sales & Operating Profit Trends

- Q3 net sales increased on higher sales of advanced semiconductor materials, reaching a record high.
- Q3 operating profit recovered from the Q1 low to ¥1,134 million, doubling QoQ (+¥595 million).

Variance Analysis: Operating profit

- Higher shipments for advanced semiconductor materials increased sales, and the resulting production ramp-up contributed to a ¥0.96 billion increase in profit.
- Depreciation and personnel expenses increased ahead of sales growth, and the launch of the Manufacturing Execution System added further costs, bringing the total increase to ¥1.93 billion.
- Operating profit reached ¥2.07 billion, as absorption of start-up costs related to the new facilities gradually improved.

Photosensitive Materials Segment

Net sales & Operating profit

Net sales: ¥ 18,807 million (Cumulative)

YoY : +¥1,132 Million, +6%

- Quarterly net sales reached a record high.
- Demand for AI applications remained strong, increasing sales of materials for advanced photoresists
- Sales of display materials remained solid, supported by stable panel production for smartphones and TVs.

Operating profit: ¥ 29 million (Cumulative)

YoY :-¥1,392 Million, -98%

- New facilities are progressing toward product qualification, and shipments are increasing.
- Higher sales of advanced materials improved fixed-cost absorption, resulting in a return to profitability both YTD and in Q3.
- Absorption of costs associated with the start-up of new facilities and the manufacturing execution system (MES) is gradually improving, supporting continued profit recovery.

Net sales & Operating profit

Net sales: ¥11,601 million (Cumulative)

YoY :+¥203 Million,+2%

- Quarterly net sales reached a record high.
- Net sales of high-purity solvents increased thanks to rising demand driven by the spread of generative AI.
- Sales of flavor and fragrance materials decreased due to inventory adjustments in the supply chain and exchange rate impact.
- The tank terminal business remained solid, supported by demand for domestic products as well as steady storage demand for imported products. Inquiries for tanks have remained at high levels.

Operating profit: ¥2,041 million (Cumulative)

YoY :+¥396 Million,+24%

- Quarterly operating profit reached a record high, partly supported by improved product mix.
- YTD profit increased on higher sales of value-added products.

FY2025 Q3 Income Statement

- Net sales increased to ¥30,408 million, up 5% YoY.
- Gross profit decreased YoY due to a ¥1.93 billion increase in expenses—mainly depreciation and headcount expansion—associated with the start-up of new facilities.
- However, net sales have expanded since bottoming out in Q1, and profits have continued to improve as these expenses have been gradually absorbed.

| Ordinary profit | 2,600 | 1,990 | 77% |
| Profit | 2,000 | 1,357 | 68% |

- Capital expenditures, depreciation, and R&D expenses remain unchanged from the initial plan.
- All major capital investments have been completed, and we aim to expand earnings by leveraging the new facilities going forward.

Results and Targets

Beyond500 (FY2026)

Net sales: ¥50 billion

Operating profit: ¥8 billion (OP Margin 16%)

Capex: ¥30 billion (Total for the Mid-Term Plan Period)

- The semiconductor market is expected to continue growing over the medium to long term.
- To expand supply capacity, mass production operation at the new facilities began in the fiscal year ending March 2026.
- We will maximize utilization of the completed facilities to expand supply of high value-added products.
- As the final year of the medium-term management plan, we will accelerate profit growth by improving capacity utilization and stabilizing mass production.
