Exhibiting AR UV Nanoimprint Resin 'Working Stamp Resin'
at nano tech 2024.

Toyo Gosei Co., Ltd. (President and Representative Director: Yujin Kimura) will be exhibiting at "nano tech 2024 the 23rd International Nanotechnology Exhibition & Conference," scheduled to take place at Tokyo Big Sight from January 31 (Wednesday) to February 2 (Friday), 2024. On the event days, we will exhibit the UV nanoimprint resins for working stamps developed by our company for AR (Augmented Reality) applications.

【nano tech 2024 outline】

Name:nano tech 2024 the 23rd International Nanotechnology Exhibition & Conference

Theme:Shaping the Future of Business

Date:Wednesday, January 31 – Friday, February 2, 2024, 10:00-17:00

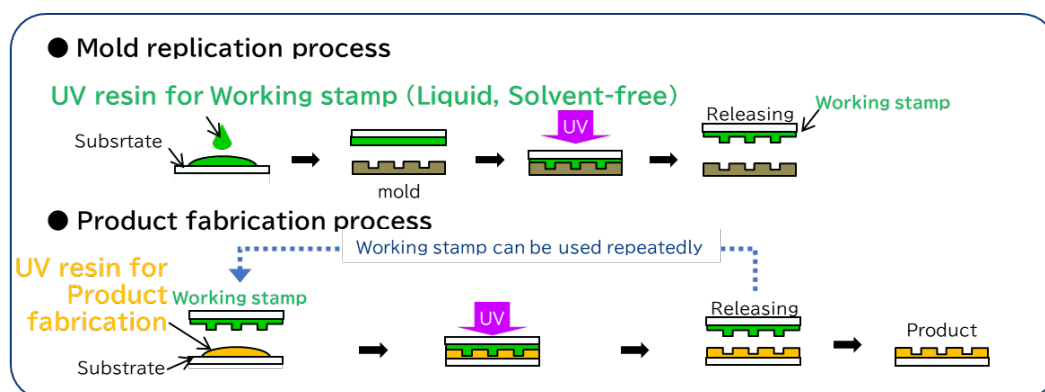

Venue:Tokyo Big Sight East Hall

Booth No.:5H-13

Website:<https://en.www.nanotechexpo.jp/main/>

【Features of our UV nanoimprint resins for working stamps】

- High durability for repeat imprinting
- High releasing property
- Solvent-free, no pre-bake process for solvent removal
- UV cure only, no post-bake process to ensure curing
